ALUMINUM TRANSFER TANK COVERS

**NEW
PRODUCT**

THE LOOK OF ALUMINUM, THE STRENGTH OF STEEL.

**NEW ALUMINUM DIAMOND-PLATE TRANSFER TANK
COVERS FROM WEATHER GUARD® DELIVER BOTH.**

WEATHER GUARD transfer tanks are constructed of heavy 14-gauge steel with Brite White powder-coat finish — it's the right way to do it. But if the rest of your WEATHER GUARD boxes are aluminum, your transfer tank doesn't match — until now.

TRANSFER TANK COVER FEATURES:

- Made of heavy-gauge aluminum for years of dependable durability
- Matches aluminum truck boxes for a unified look
- Manufactured to exacting standards to fit precisely
- Covers available for all five transfer tank models
- Fast and easy installation

SECURING YOUR REPUTATION.™

YOU CARE ABOUT HOW YOUR TRUCK LOOKS.

A professional appearance gives you pride and confidence and sends the right message to your customers. These aluminum transfer tank covers from WEATHER GUARD® will earn their keep. WEATHER GUARD is the premium brand for truck storage equipment. And now with our aluminum diamond-plate transfer tank covers, we've added the look of aluminum to the strength of steel.
