

THE TUNING BRAND YOU CAN TRUST

**FORD - GM - CHRYSLER
TUNING SOLUTIONS**

2011 PRODUCT CATALOG

TOP 5 REASONS OUR CUSTOMERS PREFER SCT'S SOFTWARE & TUNING PRODUCTS

CUTTING EDGE TECHNOLOGY LEADER

SCT is the first company in the industry to release a wireless bluetooth touch screen programmer, the Touch Screen Xtreme. With its color touch screen display, built-in Performance Calculator and Bluetooth wireless programming / data logging, the Touch Screen Xtreme has raised the bar in the tuning industry and become the new standard that all future flash programmers will be measured against.

INDUSTRY LEADING TECHNICAL SUPPORT

Since the beginning, SCT has built our reputation on the providing our dealers and customers with the highest level of technical support in the industry. SCT's technical support staff understands "time is money" in the tuning industry, and will do their best to resolve any issues that arise quickly and efficiently. SCT's Technical Support department also features a dedicated technical support discussion forum on our website, an Internet Knowledge Base for researching issues after hours and extend technical support hours of operation.

NEW VEHICLE SUPPORT

The ability to tune the newest vehicles can mean the difference between making / loosing a sale. SCT's engineering department is constantly adding new vehicle support to our Advantage III Custom Tuning software as well as adding new vehicle support to our pre-loaded tuning products. Recent additions include the 2011 Camaro V8, 2011 Mustang GT500 , 2011 Mustang 305hp V6, 2010 F-150 trucks and the all new 2011 Mustang 5.0L.

IN-CLASS & ON-LINE CUSTOM TUNING TRAINING

SCT is the first company in the industry to offer both In-Class and On-Line Custom Tuning Training. SCT offers In-Class custom tuning courses on a regular basis at our dyno equipped facility in Longwood Florida and now offers the same custom tuning training on-line! Our "Custom Tuning University" on-line custom tuning program eliminates the downtime, travel expense and other costs associated with being away from your shop. Whether in-class or on-line, you will learn "hands-on" the techniques of custom tuning a wide range of vehicles and how to fully utilize your investment in SCT's Advantage III software.

FLEXIBLE CUSTOM TUNING PACKAGE & TUNING PRODUCTS

Whether you own a custom tuning shop in need of a custom tuning solution, a retail storefront or an internet based e-commerce business, SCT has a product to fit your companies sales model. SCT offers complete custom tuning software, custom tuning devices and pre-loaded flash programmers for most Ford, General Motors and Chrysler vehicles.

SCT would like to thank all of our dealers, wholesale distributors and our SCT customers for their business and continued support. Without the support and loyalty from our customers, SCT would not be the company it is today.

OUR HISTORY

SCT was founded by hard-core automotive enthusiasts. Our strong background in software and OE automotive powertrain calibrations gives us the ability to put the most powerful and functional tuning tools into our customer's hands. Our core SCT team came from different areas of the automotive industry including performance shops, drag racing, vehicle calibrations, performance parts manufacturing and aftermarket tuning. SCT's Advantage III Custom Tuning software has been in development since 1996 and has gone thru several redesigns to become the MOST powerful Ford, GM & Dodge / Chrysler custom tuning tool in the industry today. SCT's Advantage III Custom Tuning software is used all over the world by thousands of custom tuners, performance shops, professional racers and performance manufacturers.

OUR FACILITY

SCT's state-of-the-art facility is located in beautiful Longwood Florida near Orlando.

This facility is a critical part of our growth now and in the future.

We have recently expanded all of our departments including engineering, sales and technical support. This expansion allows SCT to grow our product lines, support new model year vehicles faster and offer our customers and custom tuning dealers the support we have built our reputation on. SCT also holds regular training classes in our dyno equipped facility for new custom tuning dealers and enthusiasts wishing to perfect their custom tuning skills.

OUR COMMITMENT

SCT's mission is to be the very best at what we do. Customer support and high quality products are the reason why SCT has the largest network of Custom Tuning Dealers and distributors in the world. Besides world class customer support, our software and hardware products actually produce what is advertised. Our customers know that when they have a question, they can get an answer from us. Our Calibration team brings decades of experience to every project that we undertake. All of our products and calibrations are both street tested and dyno proven to guarantee a perfect tune every time. Our Goal is to be the first and only tuning product you will ever need for your domestic car, truck, van, SUV, or crossover vehicle.

OUR EMISSIONS COMPLIANCE

SCT applauds the California Air Resources Board (CARB) and the Environmental Protection Agency (EPA) for their efforts in reducing pollution and ensuring aftermarket products that do not effect vehicle emissions are available to the consumer.

For products that do not effect the vehicles emissions output, CARB issues an Executive Order number to allow these products to be sold, purchased and used for on road use on vehicles in California. SCT recently applied for and received a CARB Executive Order number for our Ford SF3 3015EO & Ford Economizer 3030 Pre-Loaded programmers. SCT is committed to helping protect our environment by manufacturing products that comply with all environmental regulations.

EASY INSTALLATION - AS EASY AS 1-2-3

PROGRAMMING YOUR VEHICLE

1) Simply plug the flash device into your vehicle's OBDII Port. The vehicle's OBDII port is usually located under the dashboard on the drivers side of the vehicle.

2) From the SCT flash device menu, simply select "Program Vehicle" from the device menu. The SCT flash device will automatically backup your stock PCM file to the device.

3) Once complete, the SCT flash device will upload the Performance, Fuel Economy or Custom tune file to your vehicle.

RESTORING YOUR VEHICLE BACK TO STOCK

1) Simply plug the flash device into your vehicle's OBDII Port.

2) From the SCT flash device menu, simply select "Return to Stock" from the device menu.

3) The SCT flash device will load your vehicle's factory PCM file back into the vehicles PCM. Your vehicle is now restored back to the stock PCM program.

TIRE SHREDDING HORSEPOWER & TORQUE IS LOCKED INSIDE THE NEW

2011 CAMARO

SCT'S NEW CUSTOM TUNING & PRE-LOADED DEVICES UNLOCK IT!

SCT's 2010- 2011 Camaro Pre-Loaded & Custom Tuning Flash Programmers are NOW AVAILABLE! Gone are the days of shipping ECUs back and forth, SCT's 2010 - 2011 Camaro programmers flash the vehicle's ECU directly, without removal! Best of all, your factory installed tune file is automatically backed up and stored in the device should you ever need to return your vehicle to the stock calibration!

NEW ON-LINE TRAINING!

NO TRAVEL!

NO DOWNTIME!

NO TRAVEL EXPENSES!

ON-LINE CUSTOM TUNING TRAINING

SCT's Training Department has been hard at work to take our proven top of the line Dealer Training Program and make it available ON-LINE. This will provide a virtual classroom that you can attend securely from your own shop or even while at home or in your office. You will be able to apply learned techniques in real time and ask questions to a live instructor just as if you were onsite at SCT. With SCT's New Online Training Program you get all the benefits and experience of our classroom training, without the expensive travel costs and drawbacks of leaving your shop for 2-3 days.

ASK QUESTION & INTERACT LIVE!

During SCT's Online Training course you will be viewing your instructor's computer live, as they demonstrate & explain each aspect of the course and the technical details involved in custom tuning vehicles.

While participating in each course, you can listen and interact / ask questions with the classroom via your computer's speakers / microphone or via telephone by calling into our toll free phone number. SCT's On-Line Training Software is PC / Mac compatible and allows control to be passed to each student for a live, hands-on experience, all from the comfort of your home or office.

INDIVIDUAL COURSES

Each course is divided into individual segments just like a college or university. This unique approach to Custom Tuning training allows you to absorb the material & techniques in sections vs. being overwhelmed with large amounts of information all at once.

**CUSTOM TUNING TRAINING & CERTIFICATION
MADE EASY! NO TRAVEL! NO DOWNTIME!**

Each course incorporates the use of live web cameras, bringing you up close & personal into SCT's newly renovated Dyno Facility. This allows you to experience the sights and sounds of the vehicle as it's being tuned!

AVAILABLE COURSES

INTRODUCTION TO ADVANTAGE III CUSTOM TUNING SOFTWARE

- Advantage III Installation & Updating

TOUCH SCREEN XTREME

BLUETOOTH WIRELESS FLASH DEVICE

THE FIRST & ONLY WIRELESS AUTOMOTIVE HANDHELD PROGRAMMER!

THE MOST ADVANCED PROGRAMMER ON THE MARKET!

The NEW SCT Touch Screen Xtreme is the industries first and ONLY Wireless Automotive Handheld Programmer! The Touch Screen Xtreme arrives pre-loaded with both dyno proven performance tune files and fuel economy tune files specifically calibrated for your 1996 - 2010 Ford vehicle.

Touch Screen Display

4" color touch screen display with day / night modes.

Gas & Diesel Vehicles

Most 1996-2010 gas & diesel vehicles supported.

Pre-Loaded Tune Files

Pre-loaded with dyno proven performance & fuel economy tune files.

Data Logging / Monitor

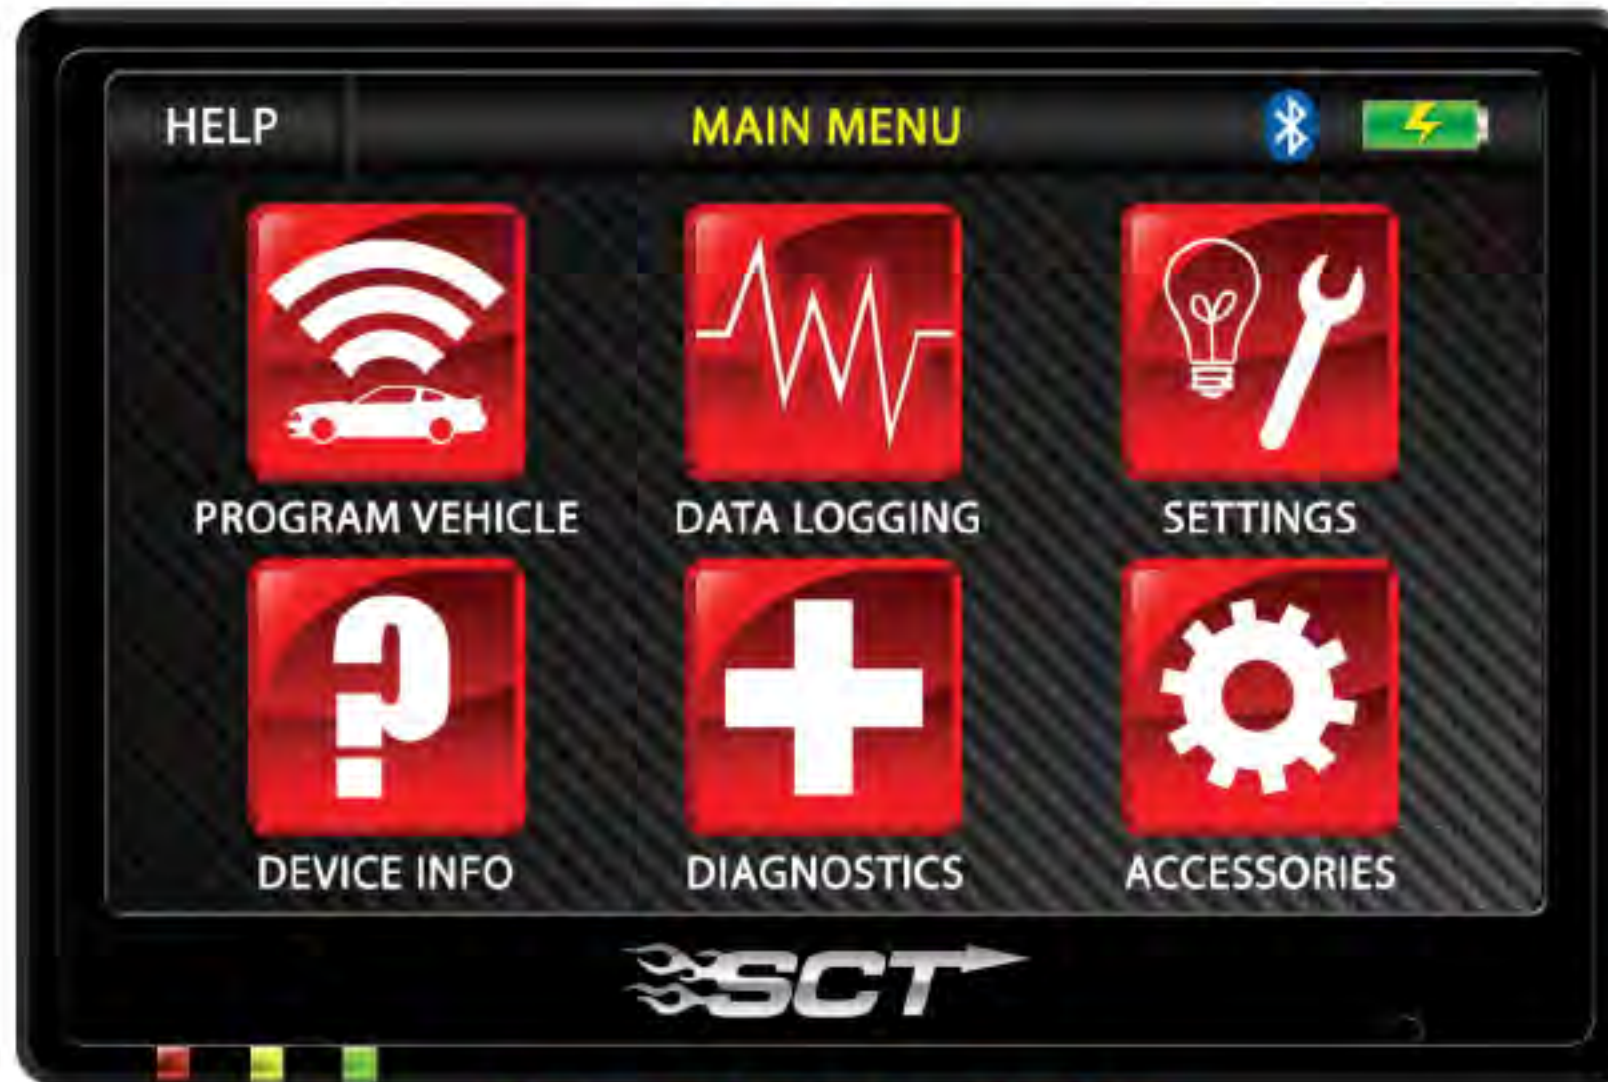

View & record your vehicle's PCM data on the LCD screen or on your laptop.

Rechargeable Battery

Internal rechargeable battery for complete wireless operation.

Bluetooth Wireless Technology

Flashes & data logs vehicle using Bluetooth wireless technology.

SCT PART#: 8900

Sleek Compact Design

Sleek compact design for reduced windshield interference & easy storage in shirt pocket.

Performance Calculator

Performance Calculator displays estimated 1/4 Mile & 0-60MPH ET.

Custom Tuning

Stores up to 3 custom tune files created by your local SCT Custom Tuning Dealer.

Diagnostic Trouble Codes

Reads and clears OBDII diagnostic trouble codes quickly & easily.

Expandable Memory

Expandable memory slot to easily increase the device storage space.

Windshield Mount

Sturdy suction cup mount allows for easy adjustment & easy device mounting.

THE FIRST BLUETOOTH WIRELESS FLASH DEVICE!

The Touch Screen Xtreme features the latest in Bluetooth wireless technology allowing you to program or data log your vehicle wirelessly! Programming your vehicle with one of SCT's pre-loaded performance or fuel economy tune files is as easy as 1-2-3. Simply plug the wireless OBDII connector into your vehicle's OBDII port, select the pre-loaded tune file using the touch screen and within minutes the Touch Screen Xtreme wirelessly programs your vehicle.

BUILT-IN PERFORMANCE CALCULATOR

Using the built-in Performance Calculator you can easily measure your vehicle's 1/4 Mile Elapsed Time, and 0-60MPH Elapsed Times. The Touch Screen Xtreme accurately estimates your vehicle's performance based on data monitored from the vehicle's computer. Now you can easily measure performance gains before and after you make vehicle modifications!

User Adjustable Options

Data Monitoring Screen

HIGH SPEED DATA LOGGING & ON-DEVICE MONITORING

Need more data other than just performance or fuel economy estimates? Easy! The Touch Screen Xtreme features built-in high speed data logging & monitoring of hundreds of PCM parameters. You can select each parameter using the device or download a copy of SCT's Live Link Data Logging software, create a list of parameters on your laptop or desktop PC and upload the list to the TSX device.

NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON POLLUTION CONTROLLED VEHICLES.

Simply select one of the pre-configured options such as 87 - 93 Octane Performance or Maximum Fuel Economy, flash your vehicle and enjoy driving until you are ready to have it custom tuned! Once you choose to have your LIVEWIRE device custom tuned, visit your local SCT Dealer and they can load up to 3 Custom Tunes into the device. LIVEWIRE can store up to 3 Custom Tune Files along with the factory uploaded tune while retaining the PRE-LOADED SCT tune files for future use.

BUILT-IN HIGH INTENSITY LED SHIFT LIGHT

Why purchase an additional shift light? LIVEWIRE has a built-in, User Adjustable, High Intensity Yellow LED Shift Light. LIVEWIRE is very accurate, it reads the RPM signal directly from your vehicle's computer. This feature eliminates special tachometer signal boxes and your struggle to find the tachometer signal.

BUILT-IN PERFORMANCE CALCULATOR

Using the built-in Performance Calculator you can easily measure your vehicle's 1/4 Mile Elapsed Time, 0-60MPH Elapsed Time and even Horsepower & Torque ratings. Livewire accurately estimates your vehicle's performance based on data monitored from the vehicle's computer. Now you can easily measure performance gains before and after you make vehicle modifications!

EASY RESTORATION BACK TO STOCK

The Livewire device backs up your factory PCM program during installation should you ever need to return your vehicle to the stock PCM program. Restoring your vehicle to the stock PCM program is as easy as selecting "Return to Stock" from the device menu.

PART NUMBER: 3030

THIS DEVICE IS 50 STATE EMISSIONS LEGAL & DOES NOT SUPPORT CUSTOM TUNING.

DEVICE CARB EXECUTIVE ORDER #: D-845-A

A 10% INCREASE IN FUEL ECONOMY

Wondering how much money you can SAVE with a 10% increase in fuel economy? If you drive an average of 12,000 miles per year, and your vehicle averages 9 miles per gallon, you would save \$299.39 per year on fuel costs if the price of gas was \$2.47 per gallon. If gas prices skyrocket as in the past, the SAVINGS would be even HIGHER!

BIG AIR MAF METERS

DON'T SETTLE FOR LOW QUALITY IMITATION MAF METERS! GET THE REAL BIG AIR MAF METER!

Every custom tuner has fought with MAF meters that arrive DOA, are calibrated incorrectly or peg at a certain HP level. SCT's redesigned BIG-AIR Meters are the solution. Our 90mm BIG-AIR MAF Meters support up to 825RWHP, will NOT PEG and are direct replacements for all 2000+ Ford Lightnings & '03-'04 Cobras. SCT's Big Air MAF Meters feature OEM Quality Calibration for factory driveability, repeated accuracy and reliability.

NEW ALUMINUM DESIGN! SAME HIGH QUALITY OEM CALIBRATION!

SCT's 90mm BIG-AIR MAF Meters support up to 825HP, will NOT PEG and are direct replacements for all 2000+ Ford Lightnings & 2003-2004 Cobras. SCT's Big Air meters are not just for Lightnings & Cobras, they can also be easily adapted to other Ford vehicles including older 5.0L engines using SCT's billet MAF adapter.

DIRECT REPLACEMENT!

Pegged your factory meter? SCT's Big Air MAF Meters are a direct replacement for all 2000+ Ford Lightnings & 2003 - 2004 SVT Cobra's!
