

5" Quiet Tone Diesel

Part# M2220S / M2220A

Introducing MBRP's new 5" Quiet Tone muffler. Featuring a high flow 5" spiral louvered core it will fit most 5" performance exhaust systems. With over triple the sound cancelling packing this is the muffler you want to tame that diesel drone.

- Up to 10% dB reduction compared to regular performance muffler
- Eliminates drone under load or towing conditions
- Direct replacement for all MBRP 5" performance mufflers
- Available in T409 stainless and heavy duty aluminized steel
- True 5" core for maximum flow
