

THE ULTIMATE RIGID INDUSTRIES KIOSK DISPLAY

The Rigid Industries® LED Lighting Ultimate Point of Purchase Display, is just that, Ultimate. The Ultimate POP Display features 15 fully functional LED Lighting Options at the click of a button. The lights featured show examples of 6 different light families, with 6 different optic configurations.

The Ultimate Display also includes Info Boards that are mounted to the left and right sides. These boards offer facts and specifications for each light. The Info Board, the display, and the switches, are all numbered for easy reference.

The flat screen TV mounted to the top features a built in DVD player. This allows you to play any of the industry specific Rigid Industries DVD.
