

FOR IMMEDIATE RELEASE

Meyer Distributing Announces Little Rock, AR Location

Jasper, IN | May 3, 2012

Meyer Distributing, Inc., a leader in automotive specialty products marketing and distribution, announces the addition of its new Little Rock, AR location.

The new cross-dock will have a direct feed from Meyer's Jasper, IN hub distribution center, which houses over 500,000 sq. ft. of inventory of all the popular automotive accessory brands including deep coverage in the trailer, RV and exhaust segments.

"The addition of the Little Rock cross-dock enhances our ability to offer logistical services throughout the region," states Jason Braun, executive vice president of Meyer Distributing. "The new site has already been fully integrated with our distribution system and technology framework and will provide unmatched service to customers in this market."

"Many markets around Little Rock will see their service increased from two deliveries per week to four. Service is also being extended to outer markets to provide customers with an affordable option for delivery in rural areas," states Nicholas Gramelspacher, national sales manager of Meyer Distributing. "Meyer is a wholesale only distributor that does not conduct any retail business that competes with its customers via online websites or physical stores - one of the few left in the industry and the only in the Little Rock region."

About Meyer Distributing, Inc.

Meyer Distributing is a leader in automotive specialty products marketing and distribution. Through numerous strategically positioned warehousing facilities, Meyer serves thousands of customers nationwide with most states via Meyer Logistics direct ship.
