

Superchips Racing Announces ALL NEW Ford Diesel Racing Tuner (part no. 1856)

Superchips Racing

Superchips Ford Diesel Racing tuner (part no. 1856) is the newest product in a long line of vehicle performance programmers. The racing tuner is specifically designed for high performance racing environments on vehicles with modified free-flowing exhaust systems including drag racing, sled pulling, rock crawling, closed course road and trail racing.

The Superchips Ford Diesel Racing tuner is easy-to-use and includes up to five standard tunes with more extreme tunes available via Superchips Internet Update software. Additional features include diesel particulate filter (DPF) management, exhaust gas recirculation (EGR) management, WOT shift point adjustments, shift firmness adjustment, wheel/tire & gear calibration, speed and rev limiter adjustment, diagnostic read & clear, and real time performance monitoring for over 20 PIDs, ¼-mile and lap timing. Features do vary by make and model.

Superchips Racing tuning delivers the most power possible for your Ford Power Stroke all while eliminating common problems with other race tuners including an overly sensitive pedal, engine surge and abrupt shifts at part and wide open throttle.

Model Year	Engine	Power Levels	HP Gains	TQ Gains	DPF Mgmt.	EGR Mgmt.	FICM Optimization
2008 – 2010	6.4L Power Stroke	4 included 1 available	Up to 200 HP Over 200 HP	Up to 425 lbs-ft Over 425 lbs-ft	Yes	Yes	No
2003 – 2007	6.0L Power Stroke	4 included	Up To 114 HP	Up To 163 lbs-ft	No DPF System	Yes (late availability)	Yes (summer 2010)
1999 – 2003	7.3L Power Stroke ¹	4 included	Up To 112 HP	Up To 205 lbs-ft	No DPF System	No EGR System	No

¹7.3L Power Stroke tuning and features are the same classic Gold Chip and Flashpaq (part no. 1855) tunes and features.

DPF Management: DPF management allows you to control the regeneration cycle of the DPF system or delete it if you remove the DPF filter.

EGR Management (On/Off): EGR management will improve power and fuel economy by bypassing the EGR system.

FICM Optimization (Summer 2010): FICM optimization gives you more power, throttle response and mileage.

⚠ WARNING

⚠ WARNING

⚠ WARNING

- Do not leave the DPF on the vehicle if using this product to delete DPF regeneration.
- Misuse of this device could lead to a serious accident or even death.
- Before installing, read and comply with all information in the Getting Started guide.
- Superchips does not condone illegal use of these products, an Environmental and Liability waiver must be signed in order to activate any DPF Delete products purchased from Superchips.
- All DPF Management tuning products are **STRICTLY FOR OFF-ROAD USE ONLY**. According to the EPA Clean Air Act, they are illegal for use on any Federal, State, or Local public highways and illegal use is punishable by the penalties enacted by the mentioned laws.
