Part #52001

Max Energy™ Power Programmer features

- Optimized engine tuning for regular and premium octane
- Speedometer/odometer correction for non-stock tire sizes from 22.5" - 44" and rear gear ratios from 2.82:1-5.13:1
- Change top-speed & rev limiter
- Adjust cooling fan "on/off" temps
- Read, display, & clear DTCs

"The Max Energy Power Programmer worked GREAT! It was very easy to use, and I noticed big power gains from stock. I also noticed more low-end torque, and my acceleration didn't drop off through the shift points. The power & acceleration held up through 6500 RPM."
