What Fill-Rite products are selling in the RETAIL channels of distribution?

What opportunities exist in products that are not in my current line offering?

How can I increase my revenue and my margins?

How can I grow my business with Fill-Rite?

All very good questions! Fill-Rite offers one of the most extensive and comprehensive fuel transfer product line offerings in the industry. Our products deliver fluids quickly and are tough, reliable and long lasting.

Whether you are transferring gasoline, diesel, B20 bio-diesel, or other petroleum products, Fill-Rite offers a wide range of certified products. From AC or DC fuel pumps, to hand pumps, meters, and hose and nozzle accessories, there is a Fill-Rite solution for your application!

If you are not carrying any of these products in your current line offering, why not consider adding these proven 2010 sellers into your line-up? Others in your distribution channel are having great success selling these models.

If you have any questions or require any information on any of these models go to [www.fillrite.com](http://www.fillrite.com) or contact your sales representative.
