### PowerBoard - the Board That MOVES

- Extends down automatically when door opens , retracts up when door closes
- Hides underneath your truck when doors are closed for complete ground clearance
- Made in the USA
- Complete kit includes two steps, wiring harness with controller, weatherproof motors, LED light kit and hardware
- 6.25 inch extra wide step is made with extruded aluminum with an ultra-durable powder coat that features a non-slip textured surface
- Sturdy, cast aluminum alloy arms allow step to descend up to six inches to a comfortable stepping height when door opens and retracts back underneath vehicle when door closes.
- All PowerBoards feature an integrated light kit, coated fasteners to resist corrosion and a heavy duty, weatherproof, pressure sensitive , pinch-proof technology motor to assure safety and workability for years to come
- Each PowerBoard can hold up to 600lb load capacity PER SIDE and have been climate and salt spray tested to operate in any climate
- Market leading 3 year/36,000 mile limited warranty
- Extension arm is available (sold separately) to provide an additional 2 inches of height for lifted trucks
