

OPTIMA® PRODUCT REVIEW

RedTop® – Automotive Starting

The strongest wake-up call a starter can get. For stock and modified vehicles that need an extra kick, the clean ignition power of the OPTIMA RedTop gets the job done. Every time.

YellowTop® – Deep Cycle Plus Cranking Power

Power draining gear? No problem. Energy hungry electronics? Bring it. More than enough power to fire up? Every time. The OPTIMA YellowTop is built for high performance. Made to withstand deep energy drains, recharge fast and deliver starting power on demand. Wherever. Whenever. For everything from hard-working hydraulics to ground-pounding audio systems, the YellowTop is the business.

For use with:

- GPS
- Cell phone charger
- Winches
- Audio and Video
- HID lights
- Electronic Waterpumps
- Electronic Fuel
- DVD player
- MP3 player
- Laptops
- Inverters
- Hydraulics
- Racing ignitions

BlueTop® – Dual Purpose for Marine & RV

Cast off or camp out. The BlueTop is purpose built for Marine and RV. It lives for extreme power drains and then charges right back up. Fast. Every time. In fact, when recharged after a deep discharge, it delivers the highest percentage of its original power capacity compared to similar deep cycle batteries.

Up to the demands of:

- Electric trolling motors
- Satellite Receivers
- Depth Sounders
- Audio systems
- Electronic Instruments
- Fish finders
- Ballast Pumps
- Air Compressors
- Light Bars
