NOW AVAILABLE
More Applications for part # 15008

JET Performance has released even **MORE NEW** applications for one of their top selling Programmers **part # 15008**.

The programmer allows the user to modify shift points, rev limit, shift firmness and top speed limiter. Improve performance with JET EZ tune or three different tuning presets for regular, mid-grade, or premium octane fuels. Corrects the speedometer and shift points after making gear ratio or tire size changes on most models. Built in scan tool.

Contact JET or refer to jetchip.com for further information.
