## ROOF RACKS

### FEATURES:

#### Base Rack:

- 2" .120 wall steel tube
- Durable textured black powder coat finish
- Simple bolt together design with grade 8 hardware
- Front and rear light bars standard
- No unsightly cross bars
- Uniquely designed to accept the Body Armor cargo basket
- Engineered to hold up to the rigors of the trail
- Applications include JK & TJ standard and Unlimited models
- Retain the ability to retract soft top with base rack installed (requires removal of cargo basket)
- Easily remove hard top with base rack and cargo basket installed
- Accessory crossbars available so that aftermarket cargo accessories such as a bike rack can be used to add versatility to your Body Armor 4x4 rack system

#### Cargo basket:

- Aluminum tubing making the basket light weight and yet strong
- Durable textured black powder coat finish
- Easy to assemble, two piece design
- Features Body Armor's exclusive pedestal mounts for ease of installation and removal on the base rack. These mounts have the unique ability to pivot making the installation and removal of the basket a breeze
- Large 56"x57" cargo area
- Tall railing for securing cargo
- Metal Body Armor 4x4 laser cut front shield
- Rear drop rail to ease loading of cargo.

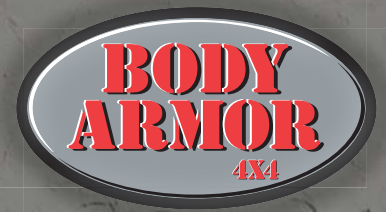

### APPLICATIONS:

- JK-6124 2007-Current Jeep JK 4 Door Unlimited
- JK-6125 2007-Current Jeep JK 2 Door
- TJ-6124 2004-2006 TJ Unlimited
- TJ-6125 1997-2006 TJ Standard
- 5124 Cargo Basket

## REAR BUMPERS AND SWING ARMS

### FEATURES:

#### Bumper:

- Manufactured from 3/16" rectangular steel tube.
- Engineered to hold up to the abuse of the trail
- Durable textured black powder coat finish
- Bumpers come with fully welded shackles with "D" rings for multiple recovery points
- 2" receiver for a third recovery point ( Bumpers are not tow rated) simple bolt installation, does not require removal of fuel tank (TJ), or drilling,
- Exclusive side pockets for step area
- Bumpers are sold with all hardware and sliding tire mount (Tire mount not sold with Base Rear Bumpers)
- Available in 59" width giving protection to the edge of the Jeep's tub (CJ, TJ, & YJ models)
- Two rear bumpers are offered: a base bumper, which does not have the capability to add the swing arm (PN CJ, TJ & YJ-2931) and the swing arm style bumper (PN CJ, TJ & TJ-2993)
- JK Rear bumper features a 63" width plus an additional diamond plate frame cover and new swing arm stop.

\* We are introducing a new tubular rear bumper for those customers that prefer the styling of a tubular bumper (Our 5292 will not attach to these bumpers)

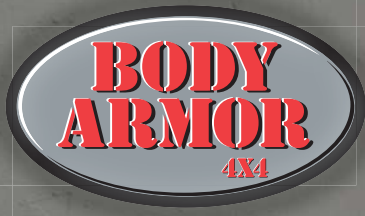

\*Optional CHSML replacement light system (PN JK-5120 fits YJ through JK)

#### Swing Arm Tire Can Carrier:

- Multiple mounting positions for tire mount, allowing the tire to be carried in the in-board position (no cans) or out-board (with cans).
- Built in accessory mount for Hi-Lift jack and CB antenna
- Capacity to carry a 35" tall tire
- Minimal vibration even off road
- Secure latch system that will not detach while on the trail
- Gas cans are secured with sliding arm secured with strong cam-style latches.
- Swing arm can be locked to bumper restricting unauthorized access to your fuel
- Capable of carrying two 5 gallon "Blitz" style gas cans.
- (Hi-Lift Jack and gas cans are not Body Armor products, they are available from your local Body Armor 4x4 Dealer)
- Self lubricating brass bushings for long wear and low maintenance
